Bottomatik

Privacy Policy

This privacy policy discloses the privacy practices for Bottomatik and every associated product ("chatbots" and websites). This privacy policy applies to information collected by the main website (https://bottomatik.com), every associated website (e.g.: login from chatbots) and chatbots themselves. It will notify you of the following:

1. What personally identifiable information is collected from you through the website or chatbot, how it is used, and with whom it might be shared.
2. What choices are available to you regarding the use of your data.
3. The security procedures in place to protect the misuse of your information.
4. How you can correct any inaccuracies in the information.

Information Collection, Use, and Sharing

We are the sole owners of the information collected on this site and on any chatbot built by Bottomatik. We only have access to/collect information that you voluntarily give us via email or any other direct contact from you. We will not sell or rent this information to anyone.

We will use your information to respond to you, and provide you with personalized experiences. We will not share your information with any third party outside of our organization and the organization the chatbot was built for, or any organization necessary to fulfill your request (e.g. Google Maps for location services, etc.).

Unless you ask us not to, we may contact you via email or via a chatbot in the future to tell you about specials, products or services, or any change to this privacy policy.

Your Access to and Control over Information

You may opt out of any future contacts from us at any time. You can do the following at any time by contacting us via the email address given in our website (hello@bottomatik.com). You can request:

- See what data we have about you, if any.
- Change/correct any data we have about you.
- Have us delete any data we have about you.
- Express any concert you have about our use of your data.

Please note that our chatbots use third party interfaces (e.g.: facebook Messenger, WeChat, etc.), and we may need your username of user id in order to find said data.

Security

We take precautions to protect your information. When you submit sensitive information via the website or a chatbot, your information is protected both online and offline.

Wherever we collect sensitive information (such as credit card data), that information is encrypted and transmitted to us in a secure way. You can verify this by looking for a closed lock icon at the bottom of your web browser, or looking for "https" at the beginning of the address of the web page.

While we use encryption to protect sensitive information transmitted online, we also protect your information offline. Only employees who need the information to perform a specific job (for example, billing or customer service) are granted access to personally identifiable information. The computers/servers in which we store personally identifiable information are kept in a secure environment.

Updates

Our Privacy Policy may change from time to time and updates will be posted on this page. You will be notified of any changes, and you can verify if you are aware of the latest version of this policy by looking for the "vXX" version number at the end of the file name.

If you feel that we are not abiding by this privacy policy, you should contact us immediately via mail at hello@bottomatik.com .
